INDEX TO VOLUME CVI.

THE Index of the Boston Medical and Surgical Journal is arranged by authors and by subjects. Articles relating to the circulatory, respiratory, or nervous systems are to be found under those heads respectively. This method of indexing is that followed by the Editors of the *Index Medicus*, and is believed to be the most satisfactory plan which can be adopted. F. H. B.

Adams, Z. B. Neglect of vaccination, a state vaccine establishment. 117.

Allen, C. A. Pelvic hæmatocele, 617.

Almy (Norwich). A remarkable case of extremely low temperature, 614.

Anatomy. Frozen sections through a thorax with pleuritic effusion, Dwight, T., 177; recent progress in anatomy, Dwight, T., 223; the study of anatomy in the Leipzig University, Walton, G. L., 380.

Atkins, F. H. Chin on pubes after version, decapitation, forceps, 381.

Atlee, W. F. A case of fungosities of the bladder cured by scraping with the finger, with some references to the literature of this affection, 289.

Ayer, J. B. A severe case of melancholia following pneumonia, 84.

Baker, W. H. Recent progress in gynæcology, 8; cancer of the uterus, 85.

Baltimore. Letter from Baltimore, 404.

Bancroft, C. P. Normal cerebration following three years of diseased mental action, the mystery of its pathology, 76, 85.

Barnes, H. J. The water supply of Boston, 78.

Bartlett, W. W. Pepsin, preparations and methods of assay, 229.

Batchelder, H. Report on malarial fever in the neighborhood of Providence, R. I., 227.

Battey (Georgia). Oöphorectomy, Listerism, 608.

Beard, G. M. Petition for a stay of proceedings in the case of Guiteau, 524.

Bibliography. *American* Gynæcological Society, Transactions, Volume V., 17; *Adams, W.*, Lectures on the Pathology and Treatment of Lateral and Other Forms of Curvature of the Spine, 405; *Asaby, H.*, Memoranda of Physiology, 350; *Atkinson, W. B.*, The Therapeutics of Gynæcology and Obstetrics, Comprising the Medical, Dietetic, and Hygienic Treatment of Diseases of Women, 251; *Baker, W. M.*, Kirkes's Handbook of Physiology, 300; *Billings, J. S.*, Address to a Graduating Class, 305; *Bulkley, L. D.*, Student's Manual of Diseases of the Skin, 521; *Charcot, J. M.*, Lectures on the Pathological Anatomy of the Nervous System, Diseases of the Spinal Cord, 423; *Coles, W.*, The Nurse and Mother, a Manual for the Guidance of Monthly Nurses and Mothers, 161; *Cutler, E. G., and Garland, G. M.*, Percussion Outlines, 280; *Dalton, J. C.*, A Treatise on Human Physiology, Designed for the Use of Students and Practitioners of Medicine, 374; *Derby, H.*, Anæsthesia and Non-Anæsthesia in the Extraction of Cataract, 542; *Dwight, T.*, Frozen Sections of a Child, 229; *Ellis, A. W.*, Diseases of Women, Including their Pathology, Causation, Symptoms, Diagnosis, and Treatment, 208; *Ellis, E.*, A Practical Manual of the Diseases of Children, with a Formulary, 161; *Ellis, G. V.*, Illustrations of Dissections in a Series of Original Colored Plates, Representing the Dissection of the Human Body, Vols. I. and II., 255; *Ewald, C. A.*, Lectures on Digestion, 64; *Foster, M., and Reichert, E. T.*, A Text-Book of Physiology, 399; *Fothergill, J. M.*, Students Aid Series, Aids to Diagnosis, 64; *Fothergill, J. M.*, Aids to Rational Therapeutics, 328; *Garnier, P.*, Dictionnaire Annuel des Progrès des Sciences et Institutions Médicales, 328; *Gowers, W. W.*, The Diagnosis and Treatment of the Diseases of the Eye, 134; *Winslow, W. H.*, The Human Ear and its Diseases, 399; *Ziemssen, H. von*, Cyclopædia of the Practice of Medicine, Vol. XX., 450.

Bigelow, H. J. Cases in the service of Dr. Bigelow, 10; a case of disease of the liver, terminating fatally in a month, 171, 176; lithotrity with evacuation, 493; resignation of Professor Bigelow, 569, 624; LL. D., 624.

Bigelow, W. S. The study of bacteria and their relations to disease, 248.

Billroth. Pirogoff's last illness, 573.

Biography. Adams, E., 64; Bigelow, H. J., 569, 624; Bigelow, J., 598; Buttrick, A. W., 427; Cahill, 24; Darwin, C. R., 492; Dodge, C. M., 379; Fisher, A., 379; Foley, J. P., 24; Hodgen, J. T., 478; King, D., 373; Mack, T., 253; Mann, A., 552; Mead, J. A., 379; Morrison, J., 504, 621; Needham, W. C. H., 72; Pancoast, J., 240, 261; Phillips, H. P., 24; Pirogoff, 19, 573; Pond, J. O., 470; Reynolds, E., 20, 23; Root, D. S., 379; Shurtleff, H., 408; Spofford, 24; Stearns, G., 427; Thomas, J. G., 24; Tucker, J., 214; White, J. P., 253; Wood, J. R., 451, 477, 493.

Bixby, G. H. Bilateral laceration of the uterine cervix of five years' standing, complicated with procidentia, recovery, 14; specula, 16; two successful cases of ovariotomy, marked discrepancy in ages, remarkable similarity in history and form of disease, 392; solid tumors of both ovaries, 417.

Blake, C. J. Tubular snare for the removal of aural polypi, 373.

Blake, J. G. Acute diseases of the lung, 275; tumor, subsequently abscess in the right iliac region, 346; cases in the service of Dr. Blake, 418.

Blake, M. E. To the late Dr. Jacob Bigelow on his eighty-ninth birthday, 598.

Blodgett, A. N. Some of the health resorts of the United States, 500.

Boardman, W. E. A case of rare form of double vagina, 346.

Boland, E. S. A partial review of eighteen cases of general paralysis of the insane, 172, 182.

Bolles, W. P. Report of progress in materia medica and pharmacy, 242; solitary kidney, 420.

Boston. The memorial history of Boston, the chapter on medicine, 232.

Bowditch, H. I. Two fatal cases of pleuritic effusion, would not paracentesis have saved life in both? German and American therapeutics in the disease, 49, 59; aspiration of the chest, 286.

Bowditch, V. Y. "Unusual or accidental results of vaccination," 356.

Bowen, W. S. A case of laryngeal paralysis supposed to be due to malarial poisoning, 130.

Bowie, R. I. Billroth on Pirogoff's last illness, 573.

Bradford, E. H. Cases of contraction at the hip joint, 52, 62; recent progress in orthopedic surgery, 305; cases of wry-neck, 513.

Bradford, S. S. Cotton-seed oil, 229.

Briggs, W. T. Antiseptic treatment of wounds, 595.

Brown, F. H. The menopad, 16; the first medical school in America, an historical item, 341.

Brug, G. A. A case of unusual tolerance of sulphate of morphia, 128, 130.

Buckingham, E. M. Albuminuria in pregnancy, 92.

Buckler, T. H. Intestinal inoculation for typhoid fever and phthisis, 117; inoculation of typhoid, prophylaxis of tuberculous diseases, 188.

Bundy, F. E., and Ingalls, W. Nephro-lithotomy, 483, 492.

Bush, J. F. A penetrating pistol-wound of the brain, 27, 36.

Cabell, J. L. Sanitary conditions in relation to the treatment of surgical operations and injuries, 562.

Cabot, A. T. A case of osteotomy, 155, 161.

Cabot, S. Cases in the service of Dr. Cabot, 395.

Caswell, E. T. Treatment of puerperal convulsions, 130; successful litholapaxy, 372; fibroid tumor of uterus, 372.

Chadwick, J. R. Admission of women to the Massachusetts Medical Society, 547.

Chamberlain (Connecticut). Ætiology of consumption, 614; small-pox and malaria, 614.

Chandler, T. H. Harvard Dental School, 87.

Channing, W. Recent progress in insane asylum management and construction, 297; the mental status of Guiteau, the assassin of President Garfield, 290, 303.

Chapin, C. V. The occurrence of intermittent fever in Providence and vicinity during the past summer, 129.

Cheever, D. W. Foreign body in œsophagus, œsophagotomy, death in sixty hours after operation, 265, 272; two cases of successful litholapaxy, 273.

Chemistry. Condition and circumstances which should induce the medical examiner to employ a chemist, Miller, E. P., 74; recent progress in medical chemistry, Hills, W. B., 126.

Children. Recent progress in children's diseases, Rotch, T. M., 57, 81; infant feeding and infant foods, Jacobi, A., 167; pneumonia in children, Fifield, W. C. B., 472; infantile diarrhœa, Davis, N. S., 608.

Circulatory System. Report on progress in the treatment of thoracic diseases, Knight, F. I., 156, 173; rupture of meningeal artery, Whitney, W. F., 250; a case of angina pectoris associated with arterial disease at the base of the brain, death from acute anæmia of the brain, Workman, W. H., 313; cases of popliteal aneurism, Porter, C. B., 341, 373; sudden pericardial effusion, Blake, J. G., 418; aneurism of the innominate, Blake, J. G., 418; specimen of rupture of the heart, Draper, F. W., 420; some negative results in sphygmography among the insane, Turnbull, F. M., 458; remarkable case of sacculated or of cirsoid aneurism of the second interosseous branch of the deep palmar arch treated by excision, Roberts, J. B., 516.

Clarke, E. C. Combined and separate systems of sewerage, 502; aneurism of the orbital, McLean (Ann Arbor), 606.

Cleemans, R. A. Report of the committee on meteorology and epidemics for the year 1880, in Philadelphia, 198.

Cowles, E. The McLean Asylum, 382.

Crane, R. Antipyretics, 616.

Curtis, H. Tumor formations in acute pelvic inflammation, 206, 241; a case of Addison's disease with autopsy, 423, 444.

Cushing, E. W. Pseudo-membranous laryngitis complicating typhoid fever and causing death, 435, 444.

Cutaneous System. A case of sudden swelling of face and nasal membrane, Ernst, H. C., 69: recent progress in dermatology, Tilden, G. H., 330, 414.

Cutler, E. G. Pathological specimens, 178: oxaluria and the microscopic examination of urinary sediments, 397.

Cutter, E. Iodoform and its uses in gynæcology, 132.

Da Costa, J. M. Clinical lecture, I: observations on catarrhal fever, 486.

Davenport, B. F. Old and new pharmacopœias, 397: report regarding the adulteration of food and drugs, 558.

Davenport, F. H. Uterine fibroid, 278.

Davidson, F. A. Stearine and stearic acid, 87.

Davis, N. S. Infantile diarrhœa, 608.

Deming, W. On some points in the treatment of phthisis pulmonalis, 614.

Digestive System. Radical cure, without operation, of a large and inflamed umbilical hernia, Bigelow, H. J., 10: Heaton's operation for the radical cure of hernia, Gay, G. W., 25, 35: multiple biliary fistulæ, 64: is acute follicular tonsilitis a constitutional disease, Prince, M., 101, 112: strangulated hernia, Ettéd, W. C. B., 111: peritonitis and pleurisy, Minot, F., 111: abscess of the liver, Hunt, 130: a case of typhlitis with general peritonitis, autopsy, Peckham, A. T., 159: a case of disease of the liver terminating fatally in a month, 171, 176: rupture of gall-bladder (?) and discharge of bile through the lungs, Parsons, A. W., 190: foreign body in œsophagus, œsophagotomy, death in sixty hours after operation, Cheever, D. W., 207, 272: ice-water and American dyspepsia, 348, 356: unintentional aspiration of the liver, Shattuck, F. C., 321, 325: a case of intussusception, Rotch, T. M., 322, 326: ice-water and dyspepsia, Harrison, G. B., 405: a case of puerperal peritonitis, Fisk, S. A., 464: the veto by the Governor of Massachusetts of a bill to regulate the practice of dentistry, 502: gastrotomy for intestinal obstruction, Hill, W., 605: contributions to the surgery of the liver, Ranoshoff, 606: infantile diarrhœa, Davis, N. S., 608.

Donkin, H. Note on a case of pseudo-hypertrophic paralysis (?), recovery, 430.

Donnelly (New York). Salicylate of potassa and its uses in acute rheumatism and dyspepsia, 607.

Draper, F. W. Recent progress in forensic medicine, 104: specimen of rupture of the heart, 420.

Draper, W. H. Bright's disease, 470.

Dunn, W. A. The therapeutics of venesection, 437, 445.

Dunster, E. S. Ovariotomy during peritonitis, 608.

Dwight, T. Frozen sections through a thorax with pleuritic effusion, 177: recent progress in anatomy, 223.

Ear. Was the life-long malady of Dean Swift Ménière's disease, 162: tubular snare for the removal of aural polypi, Blake, C. J., 373: two cases of chronic otorrhœa, 467: recent progress in otology, Green, J. Orne, 537.

Edes, R. T. High-pressure education, its effects, 220: clinical lecture on a case of idiopathic anæmia, 457.

Editorials. Introductory to 1882, 18: a conviction for criminal abortion, 18: the collective investigation committee of the British Medical Association, 41: the international committee of the Red Cross Society of Geneva, 41: the Harvard Medical School, 1880-81, plans for the future, 65: the Massachusetts Health Report, 66: the results of an examination made in 1880 of several sewerage works in Europe, 88: vaccination in Boston, 91: vaccination, principiis obsta, 91: control of defective sight on land and sea, 114: Annual Report of the United States Marine Hospital Service for the Fiscal Year 1881, 115: medical examiners and chemists, 136: the Boston Dispensary, its work and its wants, 136: was the life-long malady of Dean Swift Ménière's disease? 162: the annual meeting at Albany of the New York State Medical Society, 164: puerperal fever and inferior organisms, 184: changes in medical journals, The Journal of Otology, The Journal of Nervous and Mental Disease, 186: the value of statistics as to insane asylum management, 186: a metropolitan system of drainage for Boston and neighboring towns, 209: puerperal fever and interior organisms, 210: still another asylum conflagration, 212: a correction from Mr. Keith, 212: the memorial history of Boston, the chapter on medicine, 232: ice-water, 256: vital statistics in England and Germany, comparative mortality tables, 256: Joseph Pancoast, 260: the prizes for essays on the probabilities of a cure for malignant disease, 281: venesection, 281: Massachusetts General Hospital and out-patient abuse, 282: chinolin tartrate, 305: Dr. Billings's address to a graduating class, 305: the treatment of the criminal insane, 329: medical inspection of the public schools of Boston, 330: homicides by chloroform, 251: summer courses in medical instruction, how to utilize clinical material, 352: the anthropometric laboratory, 376: paroxysmal hæmoglobinuria (a frigore), 376: Boston Sea-Shore Home, 377: the bacillus of tuberculosis, 377: Harvard University and the medical education of women, 400: resignation of the post-graduate faculty of the Medical Department of the University of the City of New York, post-graduate courses in medicine, 401: Charles Robert Darwin, 402: the new State-Prison at Concord, Massachusetts, 424: organized railroad surgery, 424: Judge Aldrich's decision in a suit for malpractice, Stowell *versus* Drs. Smith and Fox, 425: boro-glycerid, an antiseptic compound, 426: Boston Lying-In Hospital, 426: expert testimony in cases where there is a question of insanity, 451: James R. Wood, M. D., 451: American Association for the Advancement of Science, 453: what lunatics think concerning the responsibility of the insane, 453: the new United States Pharmacopœia, 474: the petition for a stay of proceedings in the case of Guiteau, 476: some of the sanitary frivolities of the present Massachusetts legislature, 497: fourth annual congress of the American Laryngological Association, 497: cultivation of cinchona in the United States, 498: the meeting of the American Medical Association at St. Paul, 521: Dr. Oliver Wendell Holmes on medical highways and by-ways, 522: the new antiseptic, boro-glyceride, 522: an inquiry into the physiognomy of phthisis by the method of composite portraiture, 543: Suffolk District Medical Society, the section for clinical medicine and pathology, 544: general surgical exhibit at the meeting of the Massachusetts Medical Society, 569: the award of the Boylston Prize, 569: resignation of Professor Bigelow, 569: the sweating sickness of the sixteenth century, 570: the meeting of the American Medical Association, 794: the one hundred and first annual meeting of the Massachusetts Medical Society, 595: another investigation into the nature of the malarial poison, 619: association and society reports, 619.

Education. The Harvard Medical School, 1880-81, plans for the future, 65: endowment of the Harvard Medical School, 68: the Harvard Medical School, 69: Harvard Dental School, Chandler, T. H., 87: preparatory medical education, Ellis, F. W., 92: the financial condition of Harvard College, 95: high-pressure education, its effects, Edes, R. T., 221: the first medical school in America, Brown, F. H., 341: summer courses in medical instruction, how to utilize clinical material, 352: training versus "education," 382: Harvard University and the medical education of women, 400: resignation of the post-graduate faculty of the Medical Department of the University of the City of New York, post-graduate courses in medicine, 401: Johns Hopkins University and Hospital, 404: Baltimore Medical Colleges, a correction, Opie, T., 480: sixth annual report of the Johns Hopkins University, 502.

Elliot, J. B. Consumption in New Orleans, 214.

Ellis, F. W. Preparatory medical education, 92.

Elsberg, L. Paralysis of the laryngeal muscles, 592.

Emerson, E. W. The man as doctor, 529.

Ernst, H. C. A case of sudden swelling of face and nasal membrane, 69.

Eye. Control of defective sight on land and sea, 114: malarial keratitis, Miller, H. G., 130: a case of optico-ciliary neurotomy, failure, enucleation, Landolt, E., 256: two cases of congenital irideremia, with lamellar cataract in one and dislocated extarctous lenses in the other, Harlan, G. C., 368: recent progress in ophthalmology, Wadsworth, O. F., 517: eighty-six cases of cataract operation, Jeffries, B. J., 540: red and green standard marine glass, Jeffries, B. J., 561: aneurism of the orbital, McLean, 606.

Fifield, W. C. B. Obstinate vomiting of pregnancy, 86: strangulated hernia, 111: unpleasant effects from the use of iodoform, 270: diagnosis of fractures, 373: preliminary history of a case of pseudo-membranous laryngitis complicating typhoid fever and causing death, 435: pneumonia in children, 472.

Fisher, T. W. Was Guiteau sane, and responsible for the assassination of President Garfield? 604.

Fisk, S. A. A case of puerperal peritonitis, 464.

Fitz, R. H. Human actinomycosis, 182.

Folsom, C. F. The case of Guiteau, assassin of the President of the United States, 145: Guiteau's mental disease, 307.

Forster, E. J. The necessity of using the long nozzle in making intra-uterine injections after confinement, 15: the chin on the pubes in version, craniotomy, 206.

Fortress Monroe. Fortress Monroe and Old Point Comfort as a winter resort for invalids, Shattuck, F. C., 332.

Frost. The cause of typhoid fever, 617.

Fuller, F. B. Manual dilatation of the os uteri as a part of artificial delivery, 373.

Gannett, W. W. A case of criminal abortion resulting in death from air embolism, 28.

Garland, G. M. Acute lobular pleuro-pneumonia, 319, 326.

Garvin. Treatment of puerperal convulsions, 373.

Gay (Buffalo). Anchylosis of the hip-joint, 605.

Gay, G. W. Heaton's operation for the radical cure of hernia, 25, 35: surgical cases in service of Dr. Gay, 389.

General Diseases. Importation of small-pox from Canada, 46: cancer of the uterus, Baker, W. H., 85: is acute follicular tonsilitis a constitutional disease? Prince, M., 101, 112: beri-beri, 115: intestinal inoculation for typhoid fever and phthisis, Buckler, T. H., 117: the occurrence of intermittent fever in Providence and vicinity during the past summer, Chapin, C. V., 129: a case of laryngeal paralysis supposed to be due to malarial poisoning, Bowen, W. S., 130: injections of peptonated mercury for syphilis, 142: notes on cases of typhoid fever in the service of Dr. G. H. Lyman, 169, 175: treatment of typhoid fever, Mason, A. L., 178: human actinomycosis, Fitz, R. H., 182: inoculation of typhoid, prophylaxis of tuberculous diseases, Buckler, T. H., 188: typhoid and malarial fevers in Connecticut, 190: an anomalous case, was it varioloid? Otis, E. O., 213: report on malarial fever in the neighborhood of Providence, R. I., Batchelder, H., 227: is scarlatina contagious? Sargent, J., 238: trichinosis, 238: "was it varioloid?" was it rotheln? Gilman, J. H., 262: the prizes for essays on the probabilities of a cure for malignant disease, 281: two cases of probable trichinosis, Wooldridge, C. W., 299: typhoid and malarial fevers, 358: cancer of os uteri, with hydronephrosis, Morton, L., 371: the bacillus of tuberculosis, 377: a disease of the mammary areola preceding cancer of the mammary glands, Paget's disease, Porter, C. B., 412, 421: a case of Addison's disease, with autopsy, 433, 444: pseudo-membranous laryngitis complicating typhoid fever and causing death, Cushing, E. W., 435, 445: clinical lecture on a case of idiopathic anæmia, Edes, R. T., 457: a conference of sanitarians in regard to malaria, 478: observations on catarrhal fever, Da Costa, J. M., 486: Hodgkin's disease or scrofula, Liebmann, G., 555, 560: the sweating sickness of the sixteenth century, 570: hypodermic injections for syphilis, Shoemaker, J. V., 607: small-pox and malaria, Chamberlain, 614: the cause of typhoid fever, Frost, 617: another investigation into the nature of malarial poison, 619.

Generative System. Recent progress in gynæcology, Baker, W. H., 8: bilateral laceration of the uterine cervix of five years' standing, complicated with procidentia, recovery, 14: reflex contraction of the corpora cavernosa, Hodgen, J. T., 22: thirty-two consecutive ovariotomies during the year 1881, Homans, J., 73: cancer of the uterus, Baker, W. H., 85: some points regarding the diagnosis of uterine anteflexions and anteversions, Wing, C. E., 121: a Jewish circumcision, Macuen, G. E., 132: iodoform and its uses in gynæcology, Cutter, E., 132: a case of Listerian ovariotomy in which the bladder was freely laid open, uninterrupted recovery, Homans, J., 153, 160: pelvic effusions and the importance of their early recognition, with reference to treatment, report of eleven cases, Lyman, G. H., 193: tumor formations in acute pelvic inflammation, Curtis, H., 206, 241: abnormal menstruation, Richardson, W. L., 207: uterine polypus, Minot, F., 270: uterine fibroid, Davenport, F. H., 278: diphtheritic endometritis, Whitney, W. F., 327: subinvolution of the uterus, Sinclair, A. D., 337, 348: progress in genito-urinary surgery, Post, A., 242: a case of rare form of double vagina, Boardman, W. E., 346: tumor, subsequently abscess, in the right iliac region, Blake, J. G., 346: cellulitis of the broad ligament, abscess-tumor, becoming suprapelvic, extraperitoneal incision, recovery, Hosmer, A., 346: a case of pulmonary embolism on the ninth day after delivery, Stedman, C. E., 339, 349: cancer of os uteri, with hydronephrosis, Morton, L., 371: fibroid tumors of uterus, Caswell, E. T., 372: two successful cases of ovariotomy, marked discrepancy in ages, remarkable similarity in history and form of disease, Bixby, G. H., 392: solid tumors of both ovaries, Bixby, G. H., 417: cæsarean section, 526: subinvolution of the uterus, Nelson, D. T., 608: oöphorectomy, Listerism, Battey, 608: ovariotomy during peritonitis, Dunster, E. S., 608: pelvic hæmatocele, Allen, C. A., 617.

Gibney, V. P. The diagnosis of Pott's disease of the spine before the

stage of deformity, 217; a clinical contribution to the diagnosis of Pott's disease of the spine before the stage of deformity, 385.
Gilman, J. H. "Was it varioloid?" was it rötheln? 262.
